### THE TRANSPORTATION OF CORPSES.

Question of Whether They Shall Be Carried as Baggage or on a Ticket Discussed-Election of Officers This

The members of the American Associa tion of General Baggage Agents have all assembled in this city, and the first session of the sixteenth annual convention was held yesterday afternoon, the evening being spent by the visitors at the cademy of Music,

The body convened at 2 o'clock in the committee-room on the top floor of the Jefferson, and was rapped to order by President Morton. After the roll-call by Secretary Quick, the convention proceeded directly to business, and the report of the secretary and treasurer was read. This showed the association to be in an exceedingly prosperous condition, and to have on its rolls sixty-five members. A number of routine reports were submitted.

The Committee on Concealed Losses then reported, and its chairman, Mr. Robinson, of the Baltimore and Ohio Southwestern, explained that sickness had greatly interfered with the progres of the committee's work, and he asked for further indulgence, which was

HOW TO CARRY CORPSES. This matter being disposed of, the ques-tion of the propriety of transporting dead bodies as baggage, instead of on tickets, was taken up. A lively discussion ensued, and the prevailing idea seemed to be that by checking the bodies, those in charge of them would be relieved of the necessity of looking after them at transfer points. No conclusion was ar-rived at but the matter will be taken up

again to-day.

One or two minor changes were made in the constitution, but the only one of any interest was that whereby the semiannual meeting was done away with, and it was arranged that the association ould meet only once a year, at a tim and place to be agreed upon at the pre-ceding meeting. The time and place for the next meeting will be agreed upon to-

The members of the association, with The members of the association, with their ladies, went to the Academy of Music last night. They will be given a carriage-drive over the city this afternoon, and to-morrow will visit old Point. There will be two sessions to-day-one at 10 o'clock A. M. and the other of \$200 P. M. SOME OF THOSE PRESENT.

Among the members who arrived yes terday were: Messrs. J. W. Kirkland, Schenectady, N. Y.; E. B. Freeman, New York; J. E. Quick, Grand Rapids; F. W. Wilcox, Chicago; E. F. Woods, St. Paul; John Colley, Chicago; H. P. Dearing, Chicago; W. H. Grinnan, South Bethlehem, Pa.; G. E. Zeppel, Orange, N. J.; Walter Chur, Orange, N. J.; E. A. Sadd, Chicago; S. A. Smart, St. Paul; F. J. Folding, New York; A. H. Goode, New York; E. H. Parkhurst, New York; F. J. Wolfe, Albany; C. E. Durkee, Al-bany; William C. Bardenheimer, New York; F. J. McWade, Philadelphia; J. E. Ctak, New York.

The baggage-men have a very neat gold pin-badge. On a blue background in gold letters, are: "A. A. G. B. A., Richmond, January, 1897." The inscripis encased in a gold wreath The badges are attracting much attention, and will be preserved by the members as a memento of one of their most pleasant meetings.

THE PRESIDENT WILL RETIRE. Mr. George A. Morton, of the New York, New Haven, and Hartford rall-road, the president of the association, will retire from that office. Mr. J. E. Quick, of the Grand Trunk rallway, of Quick, of the Grand Trunk railway, of Canada, is the secretary and treasurer, and has been so for a number of years.

A new president will be elected to-day, A new president will be elected to-day. but Mr. Quick will be Ye-elected. It is deemed inadvisable to make a change in this office. Mr. Morton has made excellent presiding officer, but it is the rule to change presidents yearly.

One of the most conspicuous figures

the convention is Mr. C. D. Grande, the baggage-agent of the Southern railway, an old Richmond boy. He began his successful career as a newsboy in this city, and is one of the youngest members of the association. He entered the office of Major James H. Hill, the general baggage-agent of the associated railways, in this city, and remained with him six years. Seven years ago he was transferred to Washington. He was a great factor in securing the checking of bicycles on the ern railway, which matter the association is largely responsible for bringing out on the principal roads of the coun-

### WHY THE ACADEMY WAS COLD.

Mr. Leath's Explanation-System of Heating May Be Changed.

The icy blast which crept into the Academy on Tuesday night, and militated to no small extent against the enjoyment of the concert given by Madame Urso. and her associates, has been the sub ject of much adverse comment at the expense of the management. The house was very cold, and many people left concert, while others pulled their wraps.

Mr. Leath said yesterday that he burned arly a ton of coal in the fur the Academy on Tuesday. He had instructed his firemen, after reading in the Dispatch that a cold wave was on its way to the city, and was timed to arrive in the evening, to bank up the and do everything possible to heat house. The fact is, said Mr. Leath, the system of heating is very deficient, and the substitution of electric-light for gas has made a material difference, as far as the heating of the house is conerned. Then, too, the top gallery of enclosed, and the cold air that fine

The cost of heating the Academy by the present system is enormous, and it is contemplated to put in steam-heating
